

Day 1- Online Teaching and Learning

Time	Presenter	Title	Description
9am -9 :15am	Dr. Sandra Maynard, PVC Global Affairs	Opening Remarks	
9:15am - 9:55am	Dr. Hayden Noel	Plenary Session 1	A clinical associate professor of business administration at Gies College of Business, University of Illinois, Urbana-Champaign. His research interests include consumer information processing and memory, advertising and student experiential learning.
BREAK 10-10:15			
10:15am - 11:15am	Mrs. Michelle Stewart-McKoy and Dr. Charmaine McKenzie	Graphic/Visual Design for Beginners: Tips and Tricks	This interactive, introductory workshop will expose you to basic principles of graphic design (typology, colour, layout and images) which are appropriate for online teaching and learning environments. You will use a presentation software (PowerPoint, keynote or Google Slides) to create an attractive product that meets these basic requirements.
11:15am -12:15pm	Dr. Avanelle Joseph-Edwards	The Antidote to Antiquated Assessment Practices	This hands-on workshop is designed to offer best practices, practical tips, and resources when designing authentic assessments to heighten student-learning, self-efficacy and promote academic integrity in digital learning environments.
LUNCH 12:15-1 pm			
1:00pm – 2:00pm	Dr. Lynette Williamson	Innovative Methods to Engage and Educate: Micro lectures and Pecha Kucha	This presentation will present information on micro-lectures and Pecha Kucha. Both are innovative ways to present concise information that will engage the digital learner. The history of Pecha Kucha and the benefits of both formats will be discussed.
2:00pm – 3:00pm	Ms. Chevonesse Whyte	Digital Storytelling and Animation for Education	Digital Storytelling is a proven mechanism that helps students to remember various details. When we combine it with a visual medium such as animation, we are guaranteed to create content that engages our students.
3:00pm – 4:00pm	Ms. Syreeta Washington	Navigating the AI Frontier: Balancing GPT Integration and Ethical Considerations in Online Education	This interactive workshop explores the integration of AI technologies like ChatGPT in online education, addressing ethical implications and challenges. Participants will engage in discussions, hands-on activities, and strategies for maintaining academic integrity while responsibly harnessing the potential of ChatGPT to create effective digital pedagogies.
WRAP UP 4:4-15
