

Online Professional Development Workshop: Introduction to RBM – Monitoring and Evaluation for Professionals

INTRODUCTION

This workshop provides an overview of key results-based management (RBM) and monitoring and evaluation (M&E) principles, concepts, theories, and approaches. Through practical application, participants will obtain the fundamental knowledge and skills to effectively plan, implement, monitor, and evaluate programmes. It will therefore be of interest to budding RBM and M&E professionals looking to effectively influence evidence-based policymaking by first understanding or revisiting the fundamentals of RBM.

LEARNING OUTCOMES

At the end of the workshop, participants will be able to:

- Assess the importance of RBM and M&E and explain its key principles using quantitative and qualitative data;
- Apply knowledge of basic concepts in RBM and M&E to project, programme and strategic design and policy formulation;
- Analyse connections between RBM and M&E and global challenges within an inclusive sustainable development framework;
- Select appropriate planning tools and approaches that they can apply to their professional activities.

A certificate of participation will be awarded to participants who attend at least 70% of the sessions..
